## Testing: Bookmarks View Module

Testing for this module consists of selecting a class, then adding it to bookmarks and seeing the results.

### Equivalence Classes:

EC1.1 – Empty bookmarks page

EC1.2 – Non-empty bookmarks page

EC2.1 – Select one class to add to bookmarks page

EC2.2 – Select more than one class to add to bookmarks page

EC3.1 – Press “add to bookmarks” button for a class multiple times

### Test Cases:

- Input = Add one class to an empty bookmarks view = one class added to bookmarks; covers EC1.1, EC 2.1
- Input = Press “add to bookmarks” multiple times on one class to add to an empty bookmarks view = one class added to bookmarks view; covers EC1.1, 2.1, 3.1
- Input = Add one class to a non-empty bookmarks view = one class added to list of bookmarks; covers EC1.2, 2.1
- Input = Press “add to bookmarks” multiple times on one class to add to a non-empty bookmarks view = one class added to list of bookmarks; covers EC 1.2, 2.1, 3.1
- Input = Add multiple classes to an empty bookmarks page = x amount of classes added to empty bookmarks view; covers EC1.1, 2.2
- Input = Press “add to bookmarks” multiple times on x amount of classes to add to an empty bookmarks view = x amount of classes added to empty bookmarks view; covers EC1.1, 2.2, 3.1
- Input = Add multiple classes to a non-empty bookmarks view = x amount of classes added to an existing list of bookmarks; covers EC 1.2, 2.2
- Input = Press “add to bookmarks” multiple times on x amount of classes to add to an existing list in bookmarks view = x amount of classes added to an existing list of bookmarks; covers EC 1.2, 2.2, 3.1
